EDUCATION

School of Technology, Management and Engineering — NMIMS	July 2023 – July 2027
B.Tech Computer Engineering CGPA: 3.26 / 4.0	Indore, India
Ekayanaa School — Class XII 70%	2023
Ekayanaa School — Class X 81%	2021

TECHNICAL SKILLS

Languages: Python, HTML, CSS, JavaScript, Java, C++, R, MySQL
Libraries: NumPy, Pandas
Web & Mobile: Android Studio, Firebase, XML Layouts, Material Design
Tools & Infra: Unity, Google Colab, Jupyter Notebook, Cisco Packet Tracer, Git, GitHub
Concepts: OOP, Data Structures & Algorithms, Database Management, Software Engineering, Computer Networks

EXPERIENCE

Technical Intern	2025
<i>IT Softlab</i>	Indore, India
- Contributed to a government-affiliated Smart Transportation & Traffic Forecasting project by developing a web-based system using Python, Django, Scikit-learn, Pandas, HTML, CSS, JavaScript, OpenStreetMap, and Leaflet.js. - Trained ML models on 5,000+ traffic records, processing 10,000+ traffic observations to predict congestion and travel time. - Achieved 92% prediction accuracy, enabling efficient traffic analysis and route optimization.	

Club Leadership — SANGAM · TURING · ALPHALETE	2023 – 2026
<i>NMIMS Indore</i>	
Led the Cultural (SANGAM), Technical (TURING), and Sports (ALPHALETE) clubs across successive years; organised flagship events including Technex and Invictus.	

PROJECTS

Nexora AI - Intelligent Document Assistant [In Progress]	2026
<i>Retrieval-Augmented Generation (RAG) · LLMs · Frontend Dashboard</i>	
Developed Nexora AI, a RAG-based intelligent document assistant that analyses multiple PDF documents (up to 100 pages) and generates context-aware AI responses through a modern, responsive dashboard.	
NM Connect - College Event Discovery & Management App	2025
<i>Android Studio · Java · Firebase Authentication · Firebase Realtime Database</i>	
- Developed an Android event management app for event discovery, registration, and real-time updates. - Integrated Firebase Authentication and Realtime Database for secure multi-user synchronization. - Designed responsive Material Design interfaces using XML, supporting 10+ student clubs and reducing manual registration efforts.	
Candidate Tracking System - Resume Screening Database	2024
<i>PHP · MySQL</i>	
- Designed a relational schema to manage candidate profiles, applications, and interview feedback. - Built PHP backend workflows integrated with MySQL for efficient storage, retrieval, and status tracking of applicants.	
Fruit Ninja - 2D Arcade-Style Game	2025
<i>Unity · C#</i>	
- Developed fruit-slicing gameplay with spawning, collision detection, scoring, and increasing difficulty levels. - Used Unity's physics engine and C# scripting to build smooth, real-time interactive animations.	

ACHIEVEMENTS & CERTIFICATIONS

Awards: 2nd Runner-Up — Tech-Fiesta Hackathon, NMIMS Hyderabad (2025) · Hackathon Participant, NMIMS Indore (2024)
Certificates & Community: Data Analytics Job Simulation (Deloitte) · AI for All & Generative AI for All (Infosys) · Google Cloud Study Jams · Volunteer teacher, Sewa Bharti Indore (2024–present)
